### 3208 Marine Engine

The 3208 Caterpillar marine diesel engine was originally designed for the various caterpillar trucks and machinery. However because of its popularity it was redesigned to power yachts and pleasure cruisers as a main engine and other marine applications such as auxiliary engines driving electrical generators. The engine puts out 225hp, has a 636 cubic inch capacity, water-cooled turbo charged ...

### The 3208 Caterpillar Marine Engine - History and Design ...

the battery will not crank the engine. The battery will not crank the engine, even if the engine is warm. When the engine is not run for long periods of time or if the engine is run for short periods, the batteries may not fully charge. A battery with a low charge will freeze more easily than a battery with a full charge.
