### 6 1 Study And Intervention

Professional dancers at the Norwegian University of Dance (NDH) (n=200) and a group of control persons (Oslo National Academy of the Arts) (n=100) are asked to take part in this study. NDH students receive an intervention after pre-tests and are re-evaluated post-intervention and 6 months post-intervention.

### Mental Health in Dancers; an Intervention Study - Full ...

In sum, this study presents the first intervention of its kind, one that, using a randomized controlled design, produces a reduction in implicit race bias that endures for at least two months. Our data provide evidence demonstrating the power of the conscious mind to intentionally deploy strategies to overcome implicit bias. As such, these ...
