Behaviorism | Simply Psychology

Behavioral Theories of Leadership Behavioral theories of leadership are classified as such because they focus on the study of specific behaviors of a leader. For behavioral theorists, a leader behavior is the best predictor of his leadership influences and as a result, is the best determinant of his or her leadership success.

Behavioral Theories of Leadership

All right, the behavioral theory is what we're going to be talking about next. And the behavioral theory says that personality is a result of the interaction between an individual and their environment. So here's our person. And then, this is the environment. Whether it's society-- We'll draw a few houses here.

Behavioral theory (video) | Behavior | Khan Academy

Behavioral Theory of Leadership is a leadership theory that considers the observable actions and reactions of leaders and followers in a given situation. Behavioral theories focus on how leaders behave and assume that leaders can be made, rather than born and successful leadership is based on definable, learnable behavior.

TechnoFunc - Behavioral Theories of Leadership

Psychoanalytic Theory: a grand theory of human development that holds that irrational, unconscious drives and motives, often originating in childhood, underlie human behavior. (Berger, 35) Developed by Sigmund Freud. Freud believed that human behavior was motivated by unconscious conflicts that were almost always sexual or aggressive in nature.

BEHAVIORAL THEORIES — Richards on the Brain

Enter the behavioral theory of leadership. The idea is simple. If there are few natural traits exclusive to effective leaders, perhaps leaders aren't born - they're made. Following this logic, if leaders are made, there must be some consistencies in the environment and behaviors that the individual is exposed to and learns to adopt.
