A computer keyboard is a peripheral input device modeled after the typewriter keyboard which uses an arrangement of buttons or keys to act as mechanical levers or electronic switches. Replacing early punched cards and paper tape technology, interaction via teleprinter-style keyboards have been the main input method for computers since the 1970s, supplemented by the computer mouse since the 1980s.

Wands . Lifesprig can be used right away from level one, and has a powerful spread of stats. Since effectively using a 6-Link is not possible immediately in Act I due to the lack of support gems, Lifespring's +1 Spell Gems is also a very useful affix for the first 10 levels, usually for a Freezing Pulse link. Most players leveling elemental and/or spell based builds will opt to switch to ...
