The Cat 3408 is a diesel internal combustion engine. A report on the Georgia State University website notes that, unlike an Otto cycle engine, which uses a spark plug to ignite gasoline fuel, a diesel engine uses compression to generate intense heat that causes the combustion of diesel fuel.

Cat 3408 Engine Specs | It Still Runs

Remove the plug at the front end of the fuel injection pump housing. On earlier engines, the fuel ratio control (if so equipped) must be removed. NOTE: On later engines, a 1P3566 9/16" Hex Bit cut to a length of 25 mm (1.0 in.) can be used to remove the plug from the front end of the injection pump housing.

How do you time the injector pump on a 3408 mechanical engine

Came off my CAT 3408 truck engine. It's done around 6,000,000 kms since 1980. It's had 3 sets of pump elements in that time

but the internals have never been touched so they had a reasonable amount of wear. This pump is so heavy you need a small crane to lift it. It looks like a miniature V8 engine.

Cost to rebuild Caterpillar 3408 fuel injection pump ...

Fuel Priming a 3208T Engine Can anyone tell me what the procedure is for priming a 3208T Cat engine. Are there any bleed screws at the injector pump or at the injectors. The way I have done it previously is to hand prime using the pump till it is firm then turn the engine over then repeat the process until the engine fires.
