How Investors Can Profit From Bankrupt Companies

If savings exceeds investment, the excess supply of funds brings down the rate of interest. This, in turn, reduces savings and increases investment for maintaining equilibrium. However, this law of the market holds good when the entire amount of savings is invested. Questions Consumption, Savings and Investment. Savings is a form of ____.

Concept of Consumption, Saving and Investment

If you saved that \$365.00 for just one year, and put it into a savings account or investment that earns 5% a year, it would grow to \$465.84 by the end of 5 years, and by the end of 30 years, to \$1,577.50. That's the power of "compounding." With compound interest, you earn interest on the money you save and on the interest that money earns.
