As a business unit of SABIC, Specialty Film & Sheet benefits from global technical centers in the USA, the Netherlands, Saudi Arabia, China, Japan, Korea and India. These centers offer hands-on engineering and technical support ranging from correct material selection to characterization of mechanical, thermal, UV/heat aging data.

SABIC offers design and engineering services

The ESM defines the minimum technical requirements for the design, fabrication, construction, commissioning, repair, and replacement of both new and existing systems, structures, and components (SSCs), including both maintenance and modification, for programmatic and facility work. They do not apply retroactively (forcing changes to existing SSCs that are not being touched).

Engineering Standards Manual: Chapters 1 - 17

Accredited by the American National Standards Institute (ANSI), ASCE has a rigorous and formal process overseen by the Codes and Standards Committee (CSC). Standards are created or updated by a balanced, volunteer standards committee, followed by a public review period. All standards are updated or reaffirmed at least every 5 years.
