Google Android Style Guide

This style guide provides a set of editorial guidelines for anyone writing developer documentation for Google-related projects. Note: precedes terms and guidelines specific to Android...

Google developer documentation style guide | Google Developers

Styles and themes on Android allow you to separate the details of your app design from the UI structure and behavior, similar to stylesheets in web design. A style is a collection of attributes that specify the appearance for a single View. A style can specify attributes such as font color, font size, background color, and much more.
