How To Remove An M50

Ontos, officially the Rifle, Multiple 106 mm, Self-propelled, M50, was a U.S. light armored tracked anti-tank vehicle developed in the 1950s.. It mounted six 106 mm manually loaded M40 recoilless rifles as its main armament, which could be fired in rapid succession against single targets to guarantee a kill. Although the actual caliber of the main guns was 105 mm it was designated 106 mm to ...

The .45 Reising submachine gun was manufactured by Harrington & Richardson (H&R) Arms Company in Worcester, Massachusetts, USA, and was designed and patented by Eugene Reising in 1940. The three versions of the weapon were the Model 50, the folding stock Model 55, and the semiautomatic Model 60 rifle. Over 100,000 Reising's were ordered during World War II, and were initially used by the United ...

Canon recently announced the second iteration of the Canon EOS M50, one of the best-selling mirrorless cameras of all time. Like its predecessor, the Canon EOS M50 Mark II has a 24.1MP (APS-C) CMOS sensor and DIGIC 8 image processor, promising an equally powerful performance. Only a few enhancements have been made for the Mark II, however they indicate the camera will be an exciting upgrade for ...
