Embrace Possibility. Mercury FourStroke outboard motors are incredibly powerful and efficient, and they feature a wide range of applications. Crafted for less weight and high displacement, they generate abundant torque and immediate power. And because they don't have to work as hard as heavier engines or those with lower displacement, they make boats plane faster

and accelerate better, and ...

The Mercury Comet is an automobile that was produced by Mercury from 1960-1969 and 1971-1977 — variously as either a compact or an intermediate car. In its first two years, it was marketed as the "Comet" and from 1962 as the "Mercury Comet". The Comet was initially based on the compact Ford Falcon, then on the intermediate Ford Fairlane, and finally on the compact Ford Maverick.
