Oath Forger Series by Nia Mars - Goodreads

The story is entertaining and funny although maybe too simple for my taste. Basically, the main heroine , Ava is kidnapped by space pirate and is discovered by a king of another planet as an oath forger. Apparently, this oath forger is important enough to bring peace between planets and keeps the interest of 4 or 5 kings.

Very interesting start to the series. The concept of different galaxies is intriguing as is the history of the Kreks and the Oath Forger. This was not a long read, quite short actually - I between a serial and standard novel - so hopefully there is more character development for the Kreks in the next book.
