Set Prices Based on Food and Beverage Cost Percentage When discussing food and beverage costs, the cost percentage refers to the total revenue you're spending on the items that you sell. Every restaurant has a target range that serves as a goal to ensure that your profit margins are large enough to stay in business, but not so large that customers can't afford to visit your restaurant.

How to Calculate Food and Beverage Cost: Know Your Dough

Cost Concept 8 •Unit Cost may be food & beverage portion as in the cost of one item or hourly unit of work. In F&B business unit cost are commonly in average unit cost rather then actual unit cost. •Total Cost are the total of food & beverage portions served in one period such as a week or a month or total cost of labor for one period. 9.
