Sterndrive Engine

A sterndrive or inboard/outboard drive (I/O) is a form of marine propulsion which combines inboard power with outboard drive. The engine sits just forward of the transom while the drive unit (outdrive or drive leg) lies outside the hull .

Sterndrive - Wikipedia

A stern drive, sometimes also called an I/O, or Inboard/Outboard, is essentially a combination between inboard engine and an outboard drive unit. The engine itself is oriented like an automotive engine, and the rear of the engine mates with a drive unit much like the lower unit of an outboard, which can tilt.
