We call this bundle a Virtuoso Subscription that ensures your workforce can quickly learn the latest technology and workflows, while minimizing time away from project work and maximizing the return on ...

Virtuosity - Bentley Software Licenses and Customized ...

A rivet is a permanent mechanical fastener. Before being installed, a rivet consists of a smooth cylindrical shaft with a head on one end. The end opposite to the head is called the tail. On installation, the rivet is placed in a punched or drilled hole, and the tail is upset, or bucked (i.e., deformed), so that it expands to about 1.5 times the original shaft diameter, holding the rivet in place.

Rivet - Wikipedia

The oldest form of lally column is a non-adjustable steel column cut down to size and filled with concrete. However, the term has come to encompass many other iterations of mobile steel columns: adjustable steel columns, teleposts, and jack posts.

How to Use a Lally Column (Adjustable Steel Column)

The first and only pre-manufactured Cold Formed Steel Moment Frames in the Industry, designed for narrow wall lengths with high capacities at significant cost savings over structural steel moment frames.
