The Smart Stepmom claims to be a practical approach to guiding struggling stepmoms and it certainly does try for a couple of chapters not to start laying the religion on thick.

Stepmom: Practical Steps To Help You Thrive. I thought this book would be geared towards blended families, but it seems to me that it is for a child-less mom marrying a man with children. The principles can be applied to two families blending, but it is a stretch for those hurting to be able to do this.
