Venture Capital And The Finance

Venture Capital is a form of "risk capital". In other words, capital that is invested in a project (in this case - a business) where there is a substantial element of risk relating to the future creation of profits and cash flows. Risk capital is invested as shares (equity) rather than as a loan and the investor requires a higher "rate of return" to compensate him for his risk.

Sources of Finance - Venture Capital | tutor2u

Venture capital is a form of financing that provides funds to early stage, emerging companies with high growth potential, in exchange for equity or an ownership stake. Venture capitalists take the risk of investing in startup companies, with the hope that they will earn significant returns when the companies become a success.
